CAPABILITIES DECK

# The Challenges Facing Qatar's Construction Industry

Costly  
components  
sourced abroad

Unpredictable  
quality of materials

Inconsistent  
after sales service

Payment delays  
and lack of  
flexibility

Over specified  
projects

Qatar's Construction Scene  
Deserves Better.

**You** Deserve Better.

# ACF Delivers Better.

B2B or B2B2C

ACF is a **multi-disciplinary,**  
**cost-effective, solution-focused**  
production partner that will put **you first.**

We source and produce  
our items locally and  
pass the savings onto our  
clients

We assess  
every commitment  
with a business case to  
ensure value to you and us.

Your success  
is our priority  
before and after  
every project

# We Commit **to Quality**

We offer the best tailor-made solutions created by R&D department

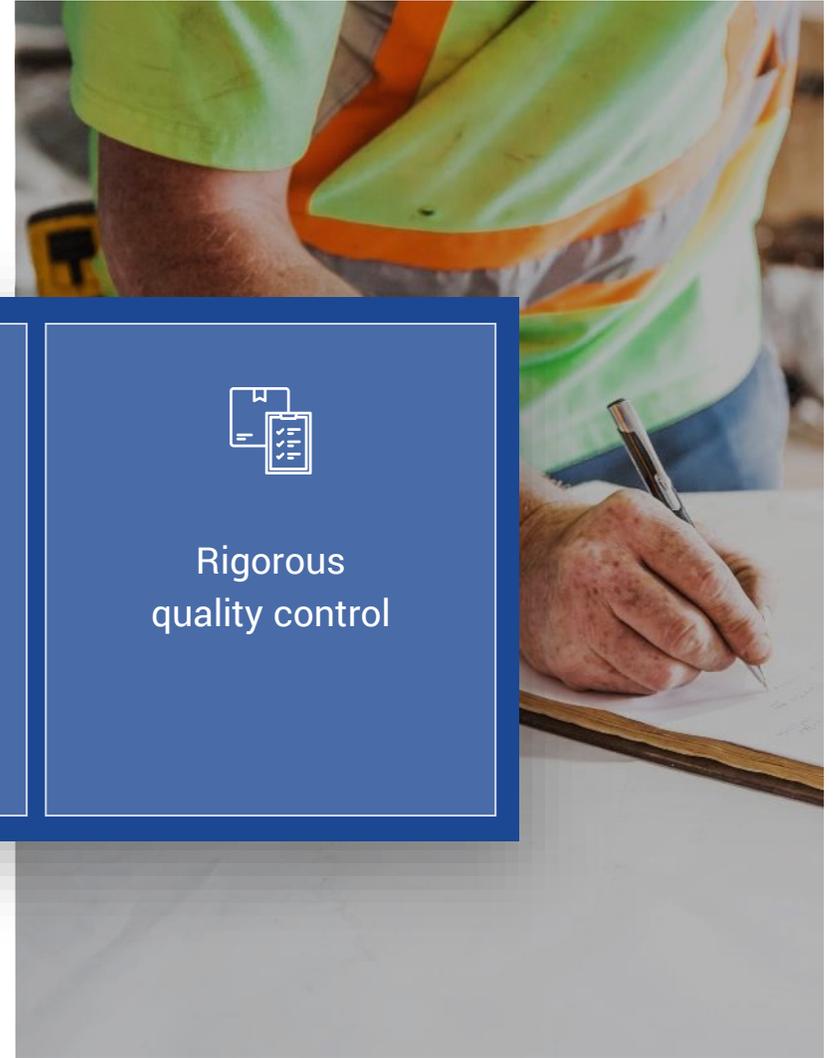

Superb products scientifically validated via independent third parties

We outperform our local and International peers

Rigorous quality control

# Our **Solutions**

Concrete  
Additives

Waterproofing

Roofing

Sealing &  
Bonding

Refurbishment

Flooring

# Every Solution **Starts and Ends with You**

## Assess

Problem areas will be thoroughly researched

## Propose

Solution will be suggested based on immediate need and long term outlook

## Execute

Implementation will be smooth, unhindered, and focus on operational requirements

## Support

No project ends at delivery, we ensure your value is made and retained

# We Solve **What Others Can't**

## Without ACF

Qatar-based clients source components that are over-priced, generic and not readily available at times of need

## With ACF

We will produce these components locally, making them readily-available, cost-effective, tailor-made, and Integrated to your projects' needs.

We Solve Our  
Client's Biggest Struggle by offering  
**Convenience & Peace of Mind**
